C. Of C. Handles Various Matters At April Meeting

Support For Mission Bay Project Again Tendered

An appeal to the city manager, Fred A. Rhodes, to clean up the beaches in front of this community has been sent by the Ocean Beach Chamber of Commerce as result of action taken at the April meeting, held Tuesday evening at the Woman's clubhouse. J. R. Lownes, president, was in the chair. A motion passed directing the secretary, Harry Masters, to send a letter to Rhodes urging that because the beach season already has started here in earnest the local beaches should be cleaned of debris and trash at earliest time possible. In the discussion that followed it was brought out that the city already has started filling the pond inside the rock wall where a child was drowned some weeks ago.

Report was heard from two members of the post-war planning committee, Al Hunt and Harry Masters. Al told of a conference held with the city authorities and Masters read notes on the same subject given him by Martin Murphy, chairman of the committee. Murphy was unable to be present for the meeting.

Milton Lancaster, co-chairman of the special committee named at the March meeting, on the matter of the proposed Ocean Beach community plaque to honor servicemen, reported that the committee members are busy and taking a real interest in the venture. He said the committee had held a joint meeting with a like committee from the Kiwanis club and that Frank B. McElwee had been chosen chairman of the joint committee. "We hope to have recommendations to make at the next Chamber of Commerce meeting in May," he said. Collections already reecived for the fund to pay for the plaque have totaled $804.81, he reported, and estimates of total cost run between $1500 and $2000.

The secretary read a communication from the "Five Cs" council of civic organizations of San Diego accepting the membership of the local Chamber of Commerce and stating that Ocean Beach would be entitled to three delegates. Personnel of the delegation was left to President Lownes and the directors to decide.

A motion passed commending the secretary for the letter he had written City Planner Glenn Rick tendering assurance of support for the city's proposed development of the Mission Bay area into an outstanding recreational area.

Another motion passed authorizing the secretary to send out card notices of meetings to each of the approximate 70 members of the Chamber of Commerce. Dan Moss speaking on the subject stated that all the women members in particular should be notified that they are as welcome as the men to attend the regular meetings.

Next meeting will be held at the Woman's clubhouse the second Tuesday evening in May, which will be May 8, at 8:15.

Argentina Threat To Democracy Of U.S. Says Speaker

Nazis Building New War Machine There Kiwanians Told

Argentina because of infiltration of Germans and particularly because of their military power is the big threat to democracy in the western hemisphere, according to Donald Pryor, who spent about seven years in that South American country as sales supervisor for a sewing machine company. He came back to the States last year and is now on the technical staff of one of the local airplane factories. Pryor was the speaker at this week's Kiwanis meeting Tuesday.

Solution of the problem is a hard nut to crack for the United States, he said, but considerable headway likely could be made by bringing middle class Argentinians to this country to show them our way of life and particularly to show them that we have a different way of life here than that they see in the U. S. film shows at the Argentine theatres. He also said the opinion they get of the U. S. from tourists that visit their country is none too good either.

Another solution is in education of the Argentinians in the proper American way of life, though this method will likely be a long drawn out process because of the dictatorial military government now in control of Argentina. This ruling class is selfishly interested in keeping down the lower classes of Argentina, he said. As a matter of fact 20 families there own 15 percent of the land of that country, he pointed out.

The Nazi militarists are wielding a tremendous influence in the Argentina government and make no bones about carrying out their plans for a western hemisphere German war machine patterned after what Hitler used so successfully for 10 years in Europe, he declared.

From 1915 to 1940 training of the Argentine army was in the hands of a German military commission and 90 percent of the officers there above the rank of major were pro-German, he said. He estimated 50,000 native born Germans now in Argentina and 250,000 more adherents of the Nazi doctrine of national socialism out of the total of 13,000,000 population of Argentina. These Nazis for years have brazenly carried on their "fifth column" activities, he said. They have at least 50 bunds and operate 20 newspapers for propaganda purposes, their storm troopers drill in the Argentina recreation camps and the German embassies, financing all this activity, operate full blast in spite of the announced break in diplomatic relations and in spite of the declaration of war against Germany, the speaker asserted. And the same is true of the Japanese embassy in Argentina, he said.

The country's legislature was dissolved several years ago, he said, and no free elections have been held since 1928.

Noel Swetland was program chairman for the evening. Wm. Don Thomson of Ocean Beach was a guest at the meeting. At the business session, A. J. Morss of the local Bank of America staff was admitted to membership, having been a member of Kiwanis at Shafter, Calif., on moving from that city here a few weeks ago.

For next week's meeting, Marc Strauss was announced as program chairman, the program feature to be entertainment by "Slim" Coats of Pacific Beach.

In Jay's other specialty, the pole vault, he had to be content with a third, his teammate Larsen taking second and Buono of San Diego first at a height of 11 feet 6 inches.

Larsen ran second in the low hurdles, won by West of San Diego in the S.C.I.F. record time of 13.2 seconds. Larsen also ran second to Timmons in the high hurdles. Other Pointers placing were Lawhead third in the half mile, Kelio second in the shot put and broad jump, Crie third in the mile and Crum third in the 440. In the last named event, Norman Stocks of San Diego won in the fast time of 51.9 seconds.

Likely the best mark of the meet was the 10-second century dash scored by Stocks of San Diego.

Edged Out By La Jolla

The Pointers also lost on the home field to La Jolla high Friday by the close margin of four points, the final tally being 54 to 50 for the Vikings. Point Loma took five firsts to the La Jollans seven, and in the Class "B" meet defeated La Jolla 49 to 46. In Class "C", the visitors won 40 to 37.

This week's meet will be with Kearney of Linda Vista on the Pointers field this (Friday) afternoon.

A HERO WHO OVERCAME—

In all the tributes that have been paid to the late Franklin Delano Roosevelt, strange it is that so little praise has been given him for his extended victory over serious physical handicaps.

Infantile paralysis, in his case, proved to be an obstacle that instilled into Roosevelt the fighting spirit as nothing else could. No great man in all history ever waged a more determiend battle against physical handicaps. Before 1924 when he was striken with the crippling disease that remained with him to the end, the late president was comparatively unknown nationally to say nothing about internationally. Most men would have given up their ambitions for greatness, but not so Roosevelt. His fighting spirit increased rather than diminished with the result that within nine years after he was stricken he had won his way to the presidency of the United States.

Most amazing of all was his physical ability to carry on as head of this great nation through 12 of the most trying years in our country's history, to withstand the great strain placed upon his energies for as long as three full terms replete with crisis.

Roosevelt's fight against his infirmities stands out as the most inspiring and uplifting example to physically handicapped men, women and children that this country has ever known.

★

THE PRESIDENT'S ADDRESS—

The nation must have gained confidence from the plain, calm and sincere address of President Truman to the joint session of Congress. The keynote of Mr. Truman's first official utterance was genuine humility and a sense of the tremendous nature of his obligations to the world and the nation. The new president made no effort at oratory or phrase-making; but the very simplicity and directness of his speech were convincing. If such a thing as a slogan could be found in his words, it was his declaration that "we must carry on.'

There is reassurance in his pledge that the military and naval leadership thus far so effective will continue unchanged. But there is no comfort to our enemies in his terse declaration that "unconditional surrender" still stands as our military determination, and that the war criminals will be pursued "to the ends of the earth" if necessary to effect their punishment.

President Truman made clear his full support of the establishment of a world organization in behalf of durable peace and pleaded for unity in support of this program. His reiteration of justice as a foundation for this peace, his statement that force should be used only when necessary to maintain justice, and his reference to the obligation of the great nations to help instead of dominating other nations, are hopeful signs of special emphasis on eliminating the causes of war.

WARTIME RESPONSIBILITIES

American fighting men believe . . . they have a right to ask: are your problems as grave as those that rest upon a division that has been ordered to capture a heavily defended hill from the enemy? Or upon the commander of a bombing force who must lead his formations steadily and unfalteringly through a hail of flak to deliver his bomb load accurately upon his target? . . . Are the risks that you must run as great as those that are incurred by every rifleman that responds to his captain's orders for an attack? That soldier must go forward, he must win, and his chances of coming back safely to the United States vary in direct ratio to the completeness with which you devote yourself to your great task.

says:

"Americans have shown what they can do with their minds and hands in producing the ships, planes, guns, tanks, ammunition and all the materials needed to crush the Axis hordes. Now, in this month of April, America will show what Americans can do with their hearts in providing the clothing needed to relieve the suffering of millions of people in war-torn countries. It is good to know that every American family will do its share."

PRESIDENT ROOSEVELT chose Mr. Henry J. Kaiser as National Chairman of the United National Clothing Collection for just one reason: *He knows this famous industrialist as a man who gets things done.*

But Mr. Kaiser will need help—if the goal of 150 million pounds of serviceable used clothing is to be attained this month.

He will need, indeed, help and contributions from *every American family throughout the land.*

Today, in Europe alone, 125 million men, women, and children are in desperate need of the forgotten usable clothes that hang in the closets or repose in the attics of America's homes.

In some areas, deaths from exposure are as great as those from starvation.

These innocent people have given their homes, their jobs, their happiness, their health—for the same lasting Peace *we* are fighting for. They need your spare clothing *now*. Will you give it to them?

What YOU can do!

1. Get together all the serviceable summer and winter clothing you can spare. This includes: Men's, women's, children's, and infants' wear, and shoes. Overcoats, topcoats, suits, dresses, shirts, skirts, jackets, pants, work clothes, gloves, underwear, sleeping garments, robes, sweaters, shawls, and all knit goods. Also blankets, bedclothes.
2. Take your contribution to your local COLLECTION DEPOT *now* or arrange to have your LOCAL COMMITTEE collect it before April 30th.
3. Support your Local Committee not only with your clothing contribution, but also with your time, effort, and energy.

WHAT CAN YOU SPARE THAT THEY CAN WEAR?

Roosevelt Tribute In Poetry Written By Geo. McKeon

There are those, Oh yes I know,
Who regard it a disaster
But "Our Friend" Ah no!
Death can never be your master.

We'll miss you Friend, your inspiration,
Your life has reached its consumation
The Greatest Gift is yours at last
It's compensation for the past.

You left your mark for good
In nations and in men,
We should be wrong to brood
For you live on to bless again.

For you the burden is no more
Your duty done, free may you soar
To glory now in peace and rest
Forever thus divinely blest.

The empty shell they lay away
The best of you is here to stay
Your presence lingers for in living
You knew well the art of giving.

From your gift new thoughts will grow
To enrich the world we know
To all men you've been a "Friend"
And know that this is not the end.

Oh, rich the seed that you did sow
On favored winds will ever blow
New flowers of thought will bud and spread
Who then can say that you are dead?

We'll miss you "Friend", your inspiration
We'll not begrudge your compensation
For such as you there's no disaster
Death can never be your Master.
—George J. McKeon.

Glad to report that we were given two more harmonicas. This makes three. As you know they are as hard as hen's teeth to get. We sent in 10 floor and table lamps and three card tables. All these articles are hard to get.

Red Cross now needs rubber balls to exercise wounded hands, rugs, large or small for new recreation rooms, also playing cards. If you do not have balls or cards will you please buy them. Our wounded have to spend long hours in bed or in their wards and want cards to help pass the time. Purpose of the balls is to relax hand muscles and as the muscles loosen the men are given larger balls.

We have many wounded and while they are back in our beloved America they are not at home where mother can bake them cakes and cookies. Won't you help take their mothers place and send in cakes and cookies on Wednesday?

GOD IS MY CO-PILOT

By COL. ROBERT L. SCOTT

WNU Features.

CONT. FROM LAST WEEK

CHAPTER IX: Burma is falling into the hands of the Japs. Flying over bombed and burned Chinese towns they land at Schwebo. Scott meets General Stilwell and his party.

CHAPTER X: Scott's group carries refugees out of Burma, heavily overloading the planes. He pays a visit to Gen. Chennault and tells him he is a fighter pilot and not a ferry pilot and is promised the next P-40 that arrives from Africa.

CHAPTER XI: Open season on Japs—the big adventure is near. Scott gets his first Jap—an army bomber on the ground. He burns up some Jap trucks and a fuel dump.

sympathizers had managed to get my range.

river boat, I put at least eight hundred rounds of ammunition in it, and left it settling in the water and drifting slowly with the current. The crew either were killed or jumped into the river.

And now, to close the big day, I got in the air again and set my course for the bridge on the Salween about twenty miles West of Paoshan. I had received a radio report that the AVG under Tom Jones, Bishop, and Tex Hill were dive-bombing the Japs who were constructing a pontoon bridge there. Reaching the rendezvous point, I couldn't see a thing except some burning trucks that the AVG had strafed on the Jap side of the Salween; evidently I had got to the battle too late.

I had turned South towards Lashio and was flying through a moderate rain when, down below on the Burma Road, I saw a troop column marching South, probably towards Chefang. At this point the Burma Road is about eight thousand feet above sea level, rising nearby to its ceiling, just over nine thousand feet.

The troops below me were Japanese soldiers, evidently retreating from the mauling they had taken back there on the river, when the AVG had bombed them with five-hundred-pound bombs. I turned to the side, to watch them—they were in heavy rain, and from the standpoint of their own safety they were in the worst possible place on the road. The Burma Road was cut out of red Yunnan clay, and there were steep banks on both sides of the column—besides I don't think they had heard me over the roar of the rain, and I know they hadn't seen my ship.

I turned my gun switches on and dove for the kill, sighting carefully through my lighted sight. My tracers struck the target dead center, for I had held my fire until the last moment. There was no need of doing this job at high speed, for if I merely cruised I'd have longer to shoot at them and could also look out for the hills hidden in the rain and the clouds. This time there was no dust, but the red, muddy water went up like a geyser. The six Fifties seemed to cut the column to bits. As I passed over, I could see those who hadn't been hit trying desperately to crawl up the muddy bank to the safety of the trees and slipping back.

Turning very close to the hills, I came back over. Every now and then I'd lose them, for the rain was heavy and it was dark in the clouds, so dark that my tracers burned brilliant to the ground and then ricocheted away into the air again, still burning. I think it was in my third pass, as the Japs seemed to be giving up the effort to climb off the road, that I decided my ship would be called "Old Exterminator."

Their officers must have called double-time, for they spread out as much as they could and ran South on the road through the rain. I kept on cutting them to pieces until my ammunition was gone; I fired 1,890 rounds into those three or four hundred Japanese, and I don't think more than a handful escaped.

EVERYWHERE HOME OWNERS AGREE:

"It saves money to refinance an old mortgage at Bank of America"

If you would like to refinance an old mortgage, follow the lead of thousands of California home owners who agree that Bank of America home refinancing saves money and frequently makes possible substantially reduced monthly payments.

At this bank it is possible to arrange an FHA insured loan to refinance an existing home loan or for financing the purchase of a home, even though it may have been built many years ago. The present condition of the house and its estimated life are the important considerations.

Discuss your home loan problem at Bank of America, and you, too, will agree that this is a friendly, efficient, money saving service.

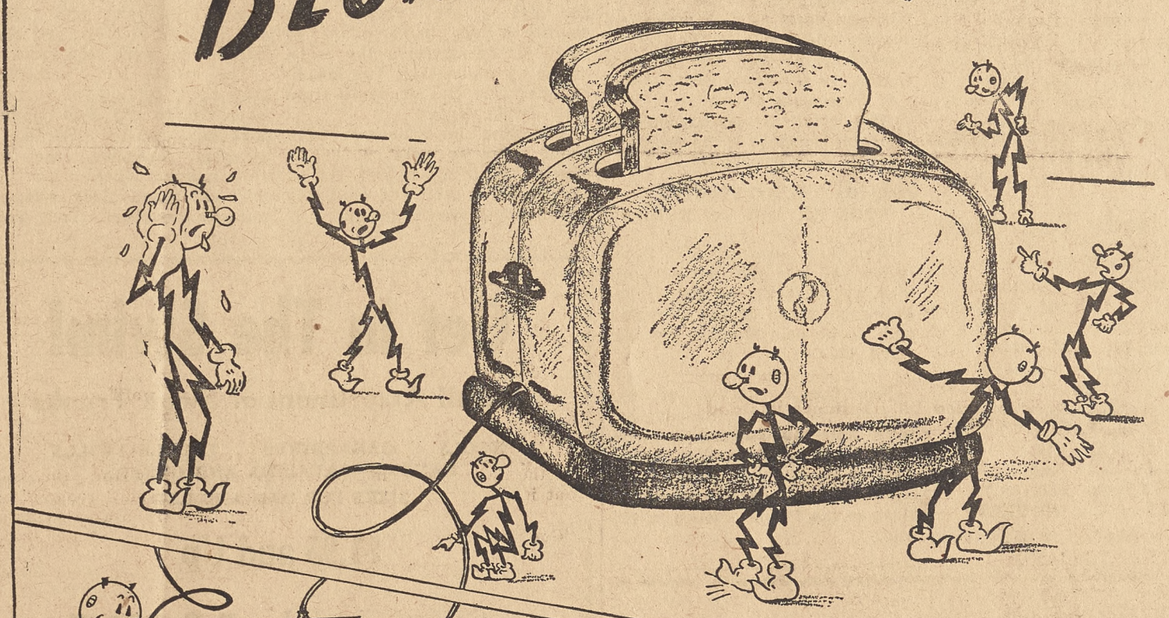
Don't blame your toaster for
BLONDE TOAST



WHEN you've only six minutes left to finish breakfast and dash for the bus, does your electric toaster suddenly develop blonde trouble? Does it pop out the toast, pale, white and half toasted?

Don't blame the toaster. It's not in love . . . it just isn't getting enough current. Chances are that it's plugged into an octopus outlet (picture) and must compete with other appliances for a meager share of electricity. When too many appliances are plugged into one outlet, fuses blow out, lights become dim or irons won't heat. If the appliances don't receive enough current, they must work "overtime" to do the same job, causing higher electric bills.

You can overcome these expensive difficulties in your new postwar home by installing many more electrical outlets than you now think you will need. Remember, tomorrow's world of television and automatic laundries will also bring with it many new appliances that are as yet undreamed of . . . and you will want most of these new appliances in your postwar home.

Women Name New Officers Of Club At April Meeting

Ocean Beach Woman's club honored Mrs. C. W. Early at their election of officers, held at their April meeting Thursday of last week, naming her to a second term as president. The other officers elected were:

Mrs. Lloyd N. Davis, first vice president; Mrs. Q. G. Turner, second vice president; Mrs. D. R. Wallace, corresponding secretary; Mrs. G. E. Paulin, recording secretary; Mrs. L. C. Near, treasurer; Mrs. J. J. Horning, auditor; Mrs. F. M. Coloneus, historian; and Mrs. Julia T. McGarvey, parliamentarian.

The officers chosen are to be installed and seated at the June meeting.

Club Adds 30 Members

Under the presidency of Mrs. Early, the local club has added approximately 30 new members during the current year. In her president's report, Mrs. Early stated that she wished the members to realize their strength as an organization for good in the community and their influence as a club on public opinion and thinking in Ocean Beach. She also gave the report of Mrs. Paul Farrar, chairman of the USO committee of the club, showing what has been done during the year in this phase of club activity.

Mrs. Morris Fried, chairman of the Red Cross committee and also district chairman of the recent Red Cross campaign, gave figures showing the outstanding record of this group. In addition to topping the drive quota by more than $1800, she reported that the sewing group that meets every Tuesday has made 983 garments and other articles for the Red Cross.

Mrs. R. J. Long reported on the activity of the literature group, of which she is chairman, stating that the attendance had grown from 10 at the beginning of the year to 25 and that no less than 10 book reviews have already been given this year, eight of them by members.

Mrs. C. W. Varney, historian, was unable to be present because of illness, so her report was read by Mrs. Lawrence Krettler. The report stressed the club's "onward and upward movement" in the new clubhouse.

Program for the meeting was provided by E. Kingsley Povenmire, mono-actor, activities secretary of the San Diego Army and Navy Y.M.C.A. Mrs. Jeannette Croft Hendrickson was program chairman.

At the business session the club also voted to cooperate with the Kiwanis club in the United National Clothing collection campaign being carried on during this month.

Hostess chairman for the tea hour was Mrs. B. H. Nielsen. Others on the hostess committee were Mmes. F. C. Barks, Q. G. Turner and Paul Hendrickson.

James I. Claspill, chief petty officer in the U. S. Naval Reserve, son of Mr. and Mrs. I. J. Claspill of 4660 Newport Ave., was married on Sunday, April 8, to Miss Louise Elizabeth Allen, daughter of Mrs. Lottie Allen of Los Angeles.. Announcement of the wedding, which took place in the Wee Kirk of Heather at Glendale, Calif., was made this week. Mr. and Mrs. I. J. Claspill and son Frank and I. J.'s mother, Mrs. Adah Claspill, attended the ceremony and reception.

The ceremony was performed at 9:30 p. m. by the Rev. M. Howard Fagan and the bride was given in marriage by her friend, E. C. Hill. She wore ivory satin with leg of mutton sleeves and formal train and a single strand of pearls, the gift of the groom. She carried a lace handkerchief 65 years old belonging to the bridegroom's grandmother. The bride's bouquet was one of white roses with orchid center.

Attending the bride was Miss Isabel Allen as maid of honor, wearing gold taffeta and chiffon with sequined calot and gold veil. Her bouquet was a nosegay of blue delphinium and yellow roses. Miss Martha Bristol was bridesmaid and wore blue taffeta and chiffon with braided calot and veil to match. Her bouquet was one of pink elfie roses and white sweetpeas.

Floral decorations for the candlelight ceremony were two baskets of calla lilies, stocks and delphinium.

Attending the bridegroom as best man was Frank W. Claspill, his brother. The groom's cousin, Russell Irwin of San Diego, was the usher. Mrs. Mary Morgan of Los Angeles, the soloist sang, "I Love You Truly."

Following the wedding, a reception in honor of the couple was held at the home of the bride, with about 50 guests attending. For the reception Mrs. Allen, mother of the bride, wore a purple dinner dress with fuschia hat and gloves and a corsage of yellow roses. Mrs. Claspill, mother of the groom, wore a blue dinner dress with gold sequined neckline and blue hat and gloves. Her flowers were pink roses.

The couple left immediately after the reception for a honeymoon trip to Big Bear mountain near Los Angeles. For her going-away ensemble, the bride wore a gray bolero suit with gray sailor and black accessories and orchid corsage. They plan to reside for the time being in northern California where the groom is on duty.

The groom was born in this city, grew up here, attended the local schools, graduating from Point Loma high school. He also attended State College for two years before entering the service. The bride is a graduate nurse, having obtained her training in the School of Nursing of the City Hospital in Cleveland, Ohio.
